Tequila Art

Tequila Espinoza is Blue Agave artistic expression turned into tequila, which is inspired on the aztec's highest honor: to offer their blood, spilled by the Agave thorns, to the gods, which is the most sacred; they offered the best, with pride. Work, passion, they focused entirely into it, that is the way Tequila Espinoza is born.

The Tequila Espinoza family, formed by Espinoza Blanco 35°, Espinoza Blanco 50°, Espinoza Reposado 38° and Espinoza Extra Añejo (Extra Old) casked degree, stands out to the eye because of its bottle's finery, as well as the beautiful liquid. We speak about spirited beverages made through a combination of the traditional process, cutting-edge technology and a strong commitment to total and absolute quality. Tequila Espinoza is meant for the refined consumer, one which appreciates art in all its forms, as well as beauty as a whole. This product line has been awarded international prizes, and it is available at the finest European stores.

Espinoza Blanco 100% Blue Agave

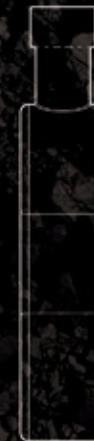

At first glance, it is brilliant, clean, with an attitude; to the smell, notes of mature, well cooked agave stand out, as well as squash and citrics such as orange and lemon. To the taste, leaves of agave, among herbal and citric flavors, stand out.

Espinoza Reposado 100% Blue Agave

At first glance, it has a strawy-like tint with amber traces; to the smell, citrics as tangerine and orange stand out, as well as mature agave, honey and precious woods. To the taste, oak, vanilla and chocolate are the most recognizable, as well as a prolonged and dry retro-taste.

Tequila Espinoza is a tequila to drink in relaxation, to appreciate in a detailed way. It is the perfect mixture between art and tradition.
